CCG reserves the right, in its sole discretion, to waive any technicalities associated with this submittal if deemed in the best interest of the Columbus Consolidated Government.

## **VI. Terms and Conditions**

### **A. Statement of Agreement**

With the submission of a Proposal, the respondent agrees that he/she has carefully examined the RFP Specifications and agrees that it is the respondent’s responsibility to request clarification on any issues in any section of the RFP with which the respondent disagrees or needs clarified. The respondent also understands that failure to mention these items during the question period or in their Proposal will be interpreted to mean that the respondent is in full agreement with the terms, conditions, specifications and requirements in the therein. With submission of a Proposal, the respondent hereby certifies: (a) that this Proposal is genuine and is not made in the interest or on behalf of any undisclosed person, firm, or corporation; (b) that respondent has not directly or indirectly included or solicited any other respondent to put in a false or insincere Proposal; (c) that respondent has not solicited or induced any person, firm, or corporation to refrain from sending a Proposal.

The respondent also understands that failure to provide required information may result in disqualification. Failure to provide administrative information may not result in disqualification. At CCG’s discretion, CCG may notify the respondent that administrative information is not provided or there was an error in the information provided, **and** CCG will

allow a respondent to provide an update to the administrative information.

However, the exception to the above, is the provision of the following required documents and information:

- **GEORGIA SECURITY AND IMMIGRATION COMPLIANCE ACT AFFIDAVIT (E-VERIFY)**, which by Georgia Law requires disqualification of the response.
- **COMMUNICATION CONCERNING THIS SOLICITATION**
- **CONFLICT OF INTEREST AFFIDAVIT**
- **ITEMS C & D OF THE SUBMITTAL FORMAT (EXHIBIT X)**

The above documents shall be included at the time of submission, in order to be eligible for consideration.

The above changes mentioned to administrative information would be considered allowable as these would be limited to changes which **do not** affect the information which the evaluators use to score the respondents. Failure of a respondent to provide the specific administrative information as required in the notice will result in disqualification. Failure of a respondent's Proposal to provide any information pertaining to a respondent and its teams qualifications, of any type, will subject the Vendor's Proposal to disqualification. Columbus Consolidated Government will not allow firms to provide updates to their Proposals in an effort to avoid disqualification, as this would allow a respondent to modify its Proposal Submission and alter the information that evaluators would score.

## **B. Joint-Venture Proposals, Sub-Consultants, and Vendors**

CCG does not generally desire to enter into "joint-venture" agreements with multiple firms. In the event two or more firms desire to "joint-venture", it is strongly recommended that one incorporated firm propose and maintain status as the Program Management firm with the remaining firms participating as major firms. Any joint-venture, proposed and established as a separate business entity, should have its own set of books and supporting documentation sufficient for an audit trail. Transactions should be recorded consistent with the joint-venture agreement, and care must be taken to ensure that the joint-venture bears its equitable share of the costs. Therefore, "unpopulated joint-ventures" would not have an adequate accounting system suitable for cost reimbursement contracts.

However more traditional "populated joint-ventures" are welcomed. A populated joint-venture is where an alliance is brought to life by infusing it with working capital, employees, and control systems. The alliance implements all necessary business systems, including payroll processing, purchasing, property control, etc. The alliance will develop its own indirect rate structure and calculates its own indirect cost rates, based on the direct and indirect costs it incurs.

Sub-Consultants shall generally be considered any team member which is performing any service which typically requires prequalification, which is subject to the Audit and Accounting System Requirements, and whose services are billed as costs. Sub-Consultant Team Members

must be written into the resulting Agreement and are subject to all terms and conditions in the Agreement. Vendors shall be considered any team member which is performing any service which typically does not require prequalification, which is not subject to the Audit and Accounting System Requirements, and whose services are billed as direct expenses. Vendors may not be written into the resulting Agreement and may not be subject to all terms and conditions in the Agreement.

### **C. Audit and Accounting System Requirements**

CCG reserves the right to reject any proposal with firms that do not meet the following requirements:

1. Firm(s) should have an accounting system in place to meet requirements of 48 CFR Part 31 and, in the case of non-profit organizations, OMB Circular A-122.
2. Any firm that currently has an aggregate contract amount exceeding \$250,000 should have submitted their yearly CPA overhead audit.
3. Firm(s) should have no significant outstanding deficient audit findings from previous contracts with GDOT that have not been resolved.
4. The prime is responsible for being reasonably assured that all sub-consultant(s) presented as a part of the proposed team are similarly in compliance with the above requirements.

### **D. Submittal Costs and Confidentiality**

All expenses for preparing and submitting responses are the sole cost of the respondent submitting the response. CCG is not obligated to any respondent to reimburse such expenses. All submittals upon receipt become the property of CCG. Labeling information provided in submittals as “proprietary” or “confidential”, or any other designation of restricted use will not protect the information from public view. Subject to the provisions of the Open Records Act, the details of the proposal documents will remain confidential until a final award.

### **E. Award Conditions**

This request is not an offer to contract or a solicitation of bids. This request and any proposal submitted in response, regardless of whether the proposal is determined to be the best proposal, is not binding upon CCG and does not obligate CCG to procure or contract for any services. Neither CCG nor any respondent submitting a response will be bound unless and until a written contract mutually accepted by both parties is negotiated as to its terms and conditions and is signed by CCG and a respondent containing such terms and conditions as are negotiated between those parties. CCG reserves the right to waive noncompliance with any requirements of this Request for Proposals and to reject any or all proposals submitted in responses. Upon review of responses, CCG will determine the respondent(s) proposal that in the sole judgment of the CCG and GDOT is in the best interest of CCG (if any is so determined), with respect to the evaluation criteria stated herein. CCG then intends to conduct negotiations with such respondent(s) to determine if an acceptable contract may be reached.

### **F. Debriefings**

CCG shall provide the “Selection Package” at the time of the Selection Announcement (also referred to as the Announcement of Entering into Negotiations). The “Selection Package” will include the scores and comments of phases for all firms who responded and will typically be

provided as a PDF file and e-mailed. All debriefings will typically be conducted in writing.

**G. Right to Cancel or Change RFP**

CCG reserves the right to cancel any and all Request for Proposals where it is determined to be in the best interest of the Department to do so. CCG reserves the right to increase, reduce, add or delete any item in this solicitation as deemed necessary.

It is the responsibility of all firms interested in submitting proposals for this advertisement to routinely check the posting on the Bid Opportunities page of Columbus Consolidated Government (<https://www.columbusga.gov/finance/Bid-Opportunities>) and the Georgia Procurement Registry for any revisions to this RFP.

**H. Substitutions, Alternates, Exceptions, and Extensions**

No substitutions or alternates will be accepted for this solicitation. Any respondent submitting substitutions or alternates will be considered non-responsive and will not be considered for award.

The roadway currently faces multiple challenges related to traffic congestion, pedestrian and cyclist safety, and limited non-motorized infrastructure. The Edgewood Road Study will assess these issues and recommend strategies to improve safety, mobility, and connectivity for all users, including vehicles, pedestrians, and cyclists.

The primary goal of the study is to develop actionable recommendations to improve traffic flow, enhance safety, and expand active transportation options along Edgewood Road. It will achieve this by transforming the wide road into something safer for all users.

**3. Objectives**

- **Traffic Analysis and Modeling**
  - Assess current traffic flow, volume, and speed along Edgewood Road, identifying bottlenecks, congestion points, and areas of safety concern.
  - Analyze intersections along Edgewood Road to determine where traffic congestion and delays occur and explore potential solutions.
- **Pedestrian and Bicycle Infrastructure Assessment**
  - Evaluate existing infrastructure along Edgewood Road and identify gaps or deficiencies in the network.
  - Assess pedestrian and cyclist safety concerns, including visibility, crossings, and connectivity.
  - Identify opportunities for the enhancement of existing infrastructure or the addition of safe crossings, buffered bike lanes, or sidewalk improvements.
- **Safety Assessment**
  - Review crash data and safety incidents
  - Identify high-risk areas where traffic-calming measures or road design changes could improve safety.
  - Evaluate the effectiveness of existing traffic controls (e.g., signals, signage) and recommend improvements.
- **Public Engagement**
  - Conduct public engagement meetings & surveys to gather input from residents.

- Ensure that the recommendations reflect the needs and priorities of all residents along Edgewood.
- **Design and Engineering Recommendations**
  - Develop a road diet design
  - Provide cost estimates and implementation timelines for each recommended improvement.
- **Feasibility Assessment**
  - Evaluate the technical, environmental, economic, and social feasibility of the potential road diet solution
